Printed Flyers/ A-Frame Signs, Word of mouth from friends / family members	Constitution Park/ Playground, Constitution Park Walking Path, Once it is open the nature park will be our most-used place!	None	A rec center would be great for families who wish they could be more active in the winter - especially families with little kids. Their options are so limited. The Vernal rec center used to open up their 2 large gyms on Fridays to families with young children - maybe they still do. They would have a few bounce houses, tricycles, balls, all sorts of active play equipment set out. This population of moms with babies and small children has great need, especially in the winter when playgrounds are unavailable. I would love to see the new walking path come out through the cove somehow. I know there have been great efforts to make this happen - I'm still holding onto hope. It would be cool to have a city-sponsored polar plunge group during January and February, possibly at Sandwash.
